EVALUATING  
EVIDENCE

Context

# Do you teach meaningful & important statistics?

**ProCivicStat:** A Collaboration of six universities from five countries, funded by the EU's ERASMUS+ program.

**Goal:** Enable learners (and future citizens) to engage, understand, analyze & **critically evaluate evidence about “civic statistics”**: Data-based messages, statistics, and trends about key social and economic “burning issues”.

**ProCivicStat Call For Action** with key recommendations, and rich teaching resources, datasets & lesson plans, and much more:

ProCivicStat website: <http://IASE-web.org/ISLP/PCA>
